

Product selected: Lumistrip LED IP20 5m NWH

LumiStrip is a low profile, cuttable high brightness LED strip. LumiStrip is available in two versions IP20 and IP67 with 2 different light output levels, Standard and Professional (Pro) with a range of straight and corner connectors. Standard versions are equipped with 300 LEDs per 5M reel and the Pro version with 600 LEDs per 5M reel. All versions are available in warm white, neutral white, red, green, blue, amber and colour changing RGB. IP20 is supplied on a 5M reel with 50cm power cable and 3M adhesive tape for mounting in almost any applications. IP67 is also supplied on 5M reel with a unique waterproof, UV, salt and corrosion resistant silicon cover. It is equipped with 50cm power cable on both ends, 25 x 200mm clear PC mounting strips with 3M adhesive mounting tape, screw kits and 10 end caps and sealant. Constant voltage LED driver must be ordered separately.

Product Details

Brand	Lumiance
Order code	3036881
Item name	Lumistrip LED IP20 5m NWH
Mounting	Ceiling surface, Wall surface
Place of use	Interior
Colour	Transparent
Length (mm)	5000
Width	8
Distribution type	Direct
Beam	Wide
Lamps description	300 High brightness LEDs
Total power consumption	24
Lamp included	Yes
T Class Max	-1
T Class Min	-1
Transformer availability	Separate item
Transformer description	Lumidriver
Transformer mounting	Remote
Transformer type	Electronic
Voltage (V)	240
Drive current	1000mA
