LED Pygmy LED1.6/T25/865/100-240V/E14/F BL 1/10 TU 93110795

Product information

A product line to suit special purpose applications in confined spaces, cabinets and fridge lighting, a great replacement for traditional alternatives of lower energy efficiency. The employment of traditional Pygmy lamps – except for the oven Pygmy -, according to official regulation, is to be banned in the EU, UK and Turkey from the 1st of September 2021. We are extending our range with a higher lumen output version to support the transition from traditional to LED lamps, keeping the price the closest possible to the original level.
