On/off switch in the back to turn on red safety light. Press the button 3 sec for displaying battery level.
Full battery level 4 green leds. The last led turns red when battery level is very low.

Specifications

Housing material	ABS & Aluminum
Lens material	Acrylic, optical
On/off switch	Rubberised on/off switch in the top
Battery type	1x18650 Li-Ion battery 3,7V 2600mAh
LED	10W
Red LED	In the back
Colour temperature (Kelvin)	7000
Colour rendering index (CRI)	>80
Output (lumens)	85 / 650
Run time (hours) down to 10% of full lumens	16h (low beam) / 4h (high beam)
Beam distance	200 m
Adjustable beam - zoom in and out	Yes - Twist style optical focus system
Max charging input	5V 1000 mA
Charging time (hours)	4.5h
Charging indicator	Green leds and 1 Red led
Battery level indicator	Yes
Charging port	Type-C USB
Cable for charger, 1 m (supplied in box)	USB-C into lamp, USB into charger
Interchangeable battery	Yes
Protection class	IK07 / IP65
Operating temperature range (Celsius)	-10-40
Headband	Silicone on the inside
Clips for helmet	Yes - supplied in the box
Declaration of conformity	CE and UKCA
Additional info	Fast battery change (interchangeable)

General Information

Lamp weight (g)	181g
Lamp dimensions (cm)	3.1 x 6.8 x 5 cm
EAN code box (1 pc)	5703296706308
EAN code inner carton =	5703296706315
EAN code outer carton =	5703296706322
Harmonized standard code	8513100000

Packaging

Description	FSC cardboard. Gift box with Elwis PRO design
Box dimensions (cm)	W 12.5 x D 11.55 x H 11
Box weight (g)	229 g (410g including product)
Carton quantity (pcs)	6pcs / 36pcs
Carton size (cm)	35.5x13.5x23.2 / 43x37.5x49
Carton weight (kg)	16.7 kg

Features

Reliable and heavy duty headlamp for the demanding Professional.
Red light in the back for high-wis safety on work.
The headlamp features a great balance on the head with the battery compartment in the back.
Fast adjustable headband with silicone stripes for easy helmet mounting.
Helmet clips included in the box.
Craft H650R is an upgrade from the popular lamps H2R and later H600R.

The following safety instructions apply (Where relevant)

General Safety Instructions

Do not shine in eyes. Do not immerse in water or other liquids. Do not cover the lens when turned on and do not place the product with the lens/light source direct on a surface. Do not operate if the housing, wiring compartment or lens is open, missing, or damaged. Allow the product to cool down sufficiently before cleaning. Do not use cleaners that contain abrasives or solvents. Use on flat, stable surfaces. Do not operate with wet hands. Do not disassemble. Do not attempt to repair if damaged. Repairs must only be carried out by the manufacturer or authorized service representative. Clean with a dry clean cloth. Please note that lighting products generate heat – if the heat exceeds 60 degrees turn off the product.

Safety instructions - rechargeable products

Always inspect the charging plug - it must look dry, clean and undamaged. Only use the supplied charging cable and/or charger. Do not use a modified or damaged charger. Do not try to charge the product if it looks damaged. Do not turn on when charging. Do not leave on charge for over 24 hours. Do not charge below 0°C, above 40°C or at high humidity. Do not leave the product on charge near flammable material as it can cause a fire. Never charge without supervision. Always pay extremely attention to Li-ion batteries as they can explode. If not handled properly, the battery may cause explosion, leakage or fire. Do not expose batteries to direct sunlight. Do not disassemble or modify batteries. Do not apply strong impacts to the battery. Do not get batteries wet. Keep batteries out of reach of children and animals. Do not place batteries on top of an electromagnetic field. Do not use batteries that work for an extremely short period of time. Do not short-circuit the battery. Do not put a battery in a microwave oven, pressure container, or other such devices. Do not recharge batteries where heat can build up. If not handled properly, the battery may cause explosion, leakage, or fire.

Safety instructions - alkaline batteries

Only use new and undamaged batteries. Remove batteries from a device that is not being used for an extended period as they can leak. Never try to charge a non-rechargeable battery.
