 Ne toujours mettre qu'un contrôleur par driver

1

The 5 in 1 controller is suitable for all LED strips :
white, CW-WW, RGB, RGB+W, RGB+CW-WW
By pressing the SET button, select the LED color
corresponding to your choice
Controllable by 2.4 GHz wireless remote control, by smartphone
thanks to the free TUYA applications (Smart Life or Tuya Smart) or by vocal
assistant (Amazon or Google)
It has a self-transmitting and self-timing function
A single remote control allows you to control several controllers
at the same time
